Good afternoon Chris,

Please see the attached P&A records and schematic for the Tribal C-3 well.

We are wrapping up our response to your comments on the Brinkerhoff 3A and will have it back to you before the end of the week.

Please let me know if you have any questions.

Best regards,

Michelle Yalung

EXTERNAL EMAIL

Michelle,

A Brinkerhoff 3A comment response in two weeks is no problem.

Regarding the Tribal C-13 application, per our call, the only item I need to move forward with routing the draft permit is the plugging and abandonment records and schematic for the Tribal C-3 well. Could this be provided in the next two weeks as well?

Good morning Chris,

Thank you for your time last week, I apologize my service was super patchy and I was disconnected from our call abruptly. The joys of working from home. Haha!

I would like to request additional time to work on the Brinkerhoff 3A application. I see the deadline is set for 6/16/2021, however we would really appreciate an additional 2 weeks to correct deficiencies, if that's okay?

In regards to Tribal C-13 SWD application, when do you need the few additional details back mentioned in our call last week?

Best regards,

Michelle Yalung

EXTERNAL EMAIL

Hi Michelle,

I have finished drafting the permit documents for the Tribal C-13 SWD well and am preparing to put them into the internal review process prior to public notice; however, there are a couple items that I want to go over. If you are free sometime early next week, I can setup a call to discuss.

Hi Chris,

Hope you're well.

We are still going through the comments you provided on the Brinkerhoff 3A and plan to schedule a call with you to address any questions we still have.

I'm sure you've been playing catch up this week after being in the field last week, but I just wanted to see if there were any updates on the Tribal C-13 SWD?

Best regards,

Michelle Yalung

Michelle,

Sorry for the delayed response, I drafted the permit documents last week and am working on the finishing touches before putting into our internal review process. There are a couple outstanding questions I am looking into, and I will follow-up with you next week if some additional information is needed. I'm going to be out in the field for the remainder of the week witnessing some well testing, but I'll be checking my email.

Good morning Chris,

Happy Friday, hope you're doing well.

I just wanted to check back in. My engineer was asking for an update. I know you said you have everything you need from us and would reach out with additional questions at a later point.

Best regards,

Michelle Yalung

Hi Michelle,

Thanks for the follow-up, I've done a cursory review of the response and am wrapping up my review of another application received prior to the Merit response on the Tribal C-13 SWD. I'm not waiting on anything else from you at this point, but will let you know if anything is identified as I begin drafting the permit documents.

Good afternoon Chris,

Hope you're well.

Not sure if you have had a chance to start your review of our revisions to the Tribal C-13 SWD application, but I would like to check in to see if you have any status updates and just to make sure you're not waiting on anything else from us.

Best regards,

Hi Chris – Would you please confirm that you received my last email including 2 attachments for the Tribal C -13 revised application? I had a couple of issues getting out larger files this morning.

Best regards,

Michelle Yalung
